

**Difficult Digestion**

That is dyspepsia. It makes life miserable. Its sufferers eat not because they want to, but simply because they must. They know they are irritable and fretful; but they cannot be otherwise. They complain of a bad taste in the mouth, a tenderness at the pit of the stomach, an uneasy feeling of puffiness, headache, heartburn and what not. The effective remedy, proved by permanent cures of thousands of severe cases, is **Hood's Sarsaparilla**. HOOD'S PILLS are the best cathartic.

**DROWSILY****As the Summer Murmurs of a Brook.****The School Board Held a Meeting Tuesday Night.**

Last night's meeting of the Board of Education was probably one of the most aimless sessions that that respected body has held for some time. Many of the members succumbed to the heat early in the evening, and by the drowsy manner in which the meeting was conducted it seemed more as though they were waiting for bed time instead of trying to do a quantity of important business.

In the first place, President Kingsbury was absent and Col. I. C. Gibbons was chosen chairman for the evening. In the second place, Clerk J. W. Smith was somewhat new to his work, and this made things go a little more deliberately. In the third place many of the members showed plainly that they were sleepy and the results were seen in their work, so that the meeting dragged along until nearly 10 o'clock before adjourning.

The School Board has decided that the course of study in the Akron schools is not too severe for the pupils, and no change will be made in this respect. There were complaints from parents to the effect that the pupils had to work too hard, and the complaints became so numerous that the Board decided at last to make a careful investigation. This was done, with the result that a report was made at last night's meeting, in which it was recommended that no change be made.

The reported lack of harmony between the principal and the teachers at the Miller school was another matter which was disposed of in much the same manner. After investigation the Board has decided that the report of the condition was exaggerated, and nothing will be done.

**INSPECTED****Boilers at Various Schools.****Most of the Steam Plants in Good Condition.**

All the boilers and steam heating plants in the various schools of the city were recently inspected by T. W. Roberts, representing the Ocean Accident and Guarantee Co., and his report of the inspection was read at Tuesday night's meeting of the School Board. At the Crosby, High, Spicer, Allen and Kent schools, some repairs will be required, but at all the other buildings the boilers and steam heating plants are reported to be in first-class shape.

**OUTINGS.****An Inexpensive and Ready Prepared Luncheon.**

During the vacation, suppose you cook less and play more. Grape-Nuts, the food that makes breakfast so easy to get all the year round, is the ideal food for that purpose.

Grape-Nuts is thoroughly cooked at the factory by food experts, and is always ready to serve with the addition of cream. You can save yourself the heat from cooking and the time and exertion necessary to prepare other food, by its use.

Its high nutrition gives strength and nourishment without the internal heat of meat and other heavy food, keeping the temperature of the body cool and comfortable; its delicious flavor pleases every palate.

Picnicker and camper as well as the housewife preparing the regular meals at home, can pass a pleasant and enjoyable summer by the use of this ready prepared and easily digested food, and will miss the usual heavy and sluggish feeling generally felt in hot weather.

Many pleasant ways of changing the form of use found in recipe book in each package.

**WRIGHT****Given Credit For Fixing Policy****As Outlined in the Pittsburg Speech.****Shocked President into Thrusting the Trusts.**

Washington, July 9.—When the new unwritten history of Roosevelt's anti-trust speech at Pittsburg, shall have been brought out, it is certain that a large share of the credit will be given to a Massachusetts man. It was Carroll D. Wright who laid before the President the facts which decided him without consultation with many of the Republican leaders at Washington and indeed without their knowledge, to make his already famous thrust against the trusts in his independence day speech.

The matter had been discussed at the White House toward the end of the season and it had been decided to let the trust issue in the present campaign go with a rather vague promise that Congress would take up the matter later and would decide the whole question on such evidence as it could secure. It was also decided to make the trust issue anything but prominent in the fall campaign. Just about that time came the threats of serious trouble in Pennsylvania, where the strike had broken out. Appeals went to the President from strong friends in New York city and (in confidence) from at least two very prominent labor leaders. It was then that Roosevelt thought of calling the United States labor commissioner into the field. He went up to Marblehead, Mass., where Mr. Wright was enjoying his summer vacation, and whirled him into the coal fields in two days.

The President is so shocked by the facts that Wright has gathered that he has hurried to put himself on record and intends to put the party also on record in a demand that the whole authority of the United States government be called in to curb what he regards as the tremendously dangerous powers of modern trusts. It is Wright's report that has made the President overthrust the argument made earlier with the party leaders at Washington. In cold fact Wright has fixed the party policy for the next campaign, for by Roosevelt's sudden determination the party is forced to follow that lead.

That the President considers Wright's report of the gravest significance is the more noteworthy because in that document Wright left the trust question severely alone, except as he was forced to handle facts which the President himself could apply to the trust problem in general. Wright in his report did not even say who was wrong or who had done the greatest injustice. He simply told what he had seen and heard.

This, however, has been enough to stir President Roosevelt to a feeling that when such an organization as the coal trust can hold the American people in as firm a grip as it has on prices all down the line, the time has come for him to take a hand. He has upset the party program for the fall campaign. He has turned the report over to the department of justice. He has told Littlefield to draw up an anti-trust bill and he is planning the anti-trust campaign himself at Oyster Bay today.

**NEW LOOP****Being Made For "Jimmy" Rankin.****Will Keep on Trying Until He Is Successful.**

"Jimmy" Rankin stated Tuesday night that he is having a portable loop constructed at the factory of the Webster, Camp & Lane Co., and this time, he says, the loop is being constructed on scientific principles. He still believes that he can do the trick without difficulty and asserts that he will keep on trying until he has accomplished it.

"I had the loop at Pointon park examined by a mathematical expert," said "Jimmy," and he wondered that I had ever been able to go as far as I did on that loop and wheel. He explained to me just what was necessary, and the new loop, and the wheel upon which I ride will be constructed upon scientific principles. I will not do any more work with the loop at the fair ground, but will wait until the new rig is finished."

**Strange Case of a Diamond Necklace.**

New York, July 9.—One of the strangest cases the police have had to deal with for some time is the robbery of the \$25,000 necklace at Alexandria Bay. Mr. and Mrs. Louis L. Richman, wealthy, and of the best reputation, were charged with the crime. The necklace belonged to Mrs. Francis DeLabane. All who know Mr. Richman praise him for his honesty.

**TO FORGET All Their Cares and Worries.****City Officials Ready For Big Picnic.****Outing Will be Attended by 100 People.**

Viaduct or no viaduct, franchisees or injunctions notwithstanding, the city officials will go to Manhattan Beach, Thursday, for their annual picnic. Special A., B. & C. cars, furnished free by the N. O. T. Co., will leave here at 8:10 and reach the beach by 11:30. Returning, the cars will leave the square, in Cleveland, at 7 p.m.

City Civil Engineer Payne, who will be in charge of the whole affair, stated Wednesday that all arrangements for a big time had been completed and that the outing would be participated in by not less than 100 people, officials and their families.

**BAD CONDITION****Says the Board, and There They Rest.****Windows at Miller School Won't Open or Close.**

Some weeks ago there was considerable complaint heard among members of the School Board about the condition of the Miller school. It was stated that the building was in bad condition when it was considered that it had only been in use for a year. Finally a careful investigation was made and it was discovered that the trouble simmered down to the fact that there were cracks in the cement

**If You Could Look**

into the future and see the condition to which your cough, if neglected, will bring you, you would seek relief at once—and that naturally would be through **Shiloh's Consumption Cure**. Guaranteed to cure Consumption, Bronchitis, Asthma, and all Lung Troubles. Cures Coughs and Colds in a day. Write to S. C. Wells & Co., Le Roy, N. Y., for free trial bottle.

Karl's Clover Root Tea purifies the Blood.

floor of the basement and the windows failed to work as well as it was thought they should.

It was reported at the meeting last night that many of the windows can neither be opened or closed, but no action was taken in the matter, other than to talk about it and say it was a bad condition.

**BOARD OF HEALTH.****What Dr. Leonard Says of the Oak Place Spring Water.**

Akron, O., Oct. 31, 1900. A study of the chemical analysis of the Oak Place Spring water shows it to be free from any harmful ingredients, and therefore an excellent drinking water.

W. W. LEONARD, M. D.

**PROBABLE****That Another Night School Will be Opened.****School Board Preparing For Next Winter.**

Most of the members of the Akron School Board are in favor of the establishment of a night school during the coming winter, similar to the one in operation last year, and it is probable that a committee will report for the establishment of the school at the next meeting of the Board. It is recognized by most of the members that the school did much good, although the attendance was somewhat smaller than it had been the year before.

The matter was brought up by Superintendent H. V. Hotchkiss at the last meeting, and then referred to the committee for a report as hereinbefore mentioned.

**STILL HOPEFUL.****Hanna Believes Miners' Strike Will Yet be Settled.**

Pottsville, Pa., July 6.—Congressman George R. Patterson, of Ashland, in an interview said he was lately in conference with Senator Hanna at Washington, acquainting the latter with the situation in the anthracite coal region. Mr. Patterson said Senator Hanna intimated that the Civic Federation has not yet lost hope of bringing the striking miners and operators together.

Congressman Patterson said Senator Hanna assured him that whatever action was taken by the Civic Federation looking towards a settlement

of the strike, it should not be in any way derogatory to the miners.

**ECONOMY****Attempted by the Board Was Too Rigid.**

In its desire to be economical in the expenditure of money this summer for repairs at the various school buildings of the city the Board of Education went to extremes, according to the statement of Mr. W. T. Flower at the meeting last night. He was empowered to spend various sums for the repair of the various buildings, and he soon found that in many cases the appropriation would not nearly cover the cost of the work. He complained of this matter and will be given power to spend enough money to get the necessary work done.

**Coke Supply Short.**

Youngstown, O., July 9.—The first furnace in the Mahoning valley to close down on account of the scarcity of coke is the Struthers furnace. The other furnaces are running from hand to mouth, but have not been compelled to close down as yet. The trouble is the scarcity of motive power with the railroads, which are unable to move the coke.

**"I had headache and pain in the side."**

If you will read the letter of Mrs. McKenzie, given below, you will find that she says—"I had uterine disease, also headache and pain in the side." Uterine disease is a common cause of headache, backache, sideache, nervousness and other womanly ills.

Dr. Pierce's Favorite Prescription cures uterine disease, and, therefore, cures the headache, sideache, etc., which result from a diseased condition of the womanly organism. "Favorite Prescription" is the best medicine for women. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

Sick women are invited to consult Doctor Pierce by letter, free. All correspondence held in strict privacy and answered secretly. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I took two bottles of your 'Favorite Prescription' and two of the 'Golden Medical Discovery,' and am feeling well," writes Mrs. Dan McKenzie, of Lorway Mines, Cape Breton Co., Nova Scotia. "I had uterine trouble, also headache, and pain in the side. After taking your medicine I got well. You may publish this or use it in any way you think best, as I cannot speak too highly of Dr. Pierce and his medicines."

You Are to Blame For It IF YOU SUFFER, FOR YOU MAY

Eat What you like. We Digest it.

Paine's Celery Wafers.

Candy Laxative—

25 cents—

This purely vegetable product is absolutely harmless. It may be taken for any period without injury. It will positively cure any case of Chronic Indigestion, Dyspepsia, Constipation, Sour Stomach, Heartburn, Pain in the Side, Etc. While it is not the most for the money, it is the best.
